4 OTC derivatives market activity, second half 2006 In general, large markets tend to be less concentrated than smaller markets, although there are some notable exceptions. For example, the HIs for interest rate swaps in Swedish kronor are the second lowest in the swaps segment behind the euro.

Math 581/Econ 673: Mathematical Finance

The thesis that economics is “performative” (Callon 1998) has provoked much interest but also some puzzlement and not a little confusion. The purpose of this article is to examine from the viewpoint of performativity one of the most successful areas of modern economics, the theory of options, and in so doing hopefully to clarify some of the issues at stake.
